PROPERTY MAINTENANCE, VACANT BUILDING, AND DERELICT BUILDING

The purpose of this Ordinance is to establish an enforcement program to address the problem of derelict, abandoned, and vacant commercial and residential buildings and property within the City in order to protect the public health, safety, and welfare of the community through the required maintenance of unkempt, unsightly, unsafe, unsanitary, and otherwise improperly maintained premises and structures.

The program is intended to protect the City from blight, deterioration, and decay as a result of properties in a condition or state that potentially would have an adverse effect on the value, utility, and habitability of property within the City. In addition to the obvious hazards which these conditions pose to the public health, safety, and welfare, they specifically cause damage to adjoining and nearby properties. A property which is merely unkempt or vacant for long periods may reduce the value of adjoining and nearby property, and the habitability and economic well-being of the City may be materially and adversely affected.

The goal of this Ordinance is as follows:

- (1) To supplement the City Nuisance Ordinance and further define as public nuisances those conditions which constitute visual blight and which could result in conditions which are harmful or deleterious to the public health, safety and welfare; and
- (2) To develop regulations that will promote the sound maintenance of property, enhance the livability, community appearance, and the social, economic, and environmental conditions of the community; and
- (3) To establish guidelines for the correction of property maintenance violations and nuisances that afford due process and procedural guarantees to affected property owners; and
- (4) To support responsible environmental practices with the repair and reuse of existing structures in lieu of demolition of buildings that are able to be repaired.
- (5) To prevent demolition by neglect of historic properties within the City as they are deemed to be an economic resource of the City.

5.672 **Administration.**

- (1) The Community Development Department shall be responsible for administering a program for identifying and monitoring the condition of buildings and properties within the City.

A. Purpose.

Vacant buildings are a cause and source of blight in both residential and non-residential neighborhoods, especially when the person in charge of the building fails to actively maintain and manage the building to ensure that it does not become a liability to the neighborhood. Vacant buildings discourage economic development and retard appreciation of property values. Vacant buildings are potential fire hazards and can jeopardize the ability of owners of neighboring property from securing or maintaining affordable fire insurance. Vacant buildings cause increased

need for police protection due to misuse of the property by persons not having permission or right to use the property. It is the responsibility of property ownership to prevent owned property from becoming a burden to the neighborhood and community and a threat to the public health, safety, or welfare. One vacant building which is not actively and well maintained and managed can be the core and cause of spreading blight.

5. The property shall be posted with name and 24-hour contact phone number of the owner, person in charge, or a local property management representative. The posting shall be no larger than 18" X 24" and shall contain the words "THIS PROPERTY MANAGED BY . . ." The posting shall be secured to the exterior of

 - b. The building meets all applicable codes, including the Property Maintenance Standards, and is actively being offered for sale, lease, or rent; or
 - c. The Community Development Director may approve an exception based on a written finding that there is a benefit to the community in the building remaining vacant such as, but not limited to, historical significance of the building interior that prevents current use of the building, use of the building that serves a current or future need of the business and/or property owner, etc. and provided that the building is maintained to the standards as identified in the Property Maintenance Code.

If payment is not received by the end of the year in which it is due, it may be turned over to a collection agency, become a lien on the property in accordance with this Chapter, or be subject to any other enforcement available to the City.

3. Waiver of Fee.

The Vacant Building Fee shall be waived if the person in charge of the property makes the necessary repairs and offers the building for sale, lease, or rent as follows:

a. During the first year of imposition, the full amount of the fee may be waived; or

-
- b. During subsequent years of imposition, an amount equal to the cost of improvements may be waived upon submittal of a request to the Community Development Director with copies of receipts for work completed. The City may retain a portion of the fee for administrative costs.

5.682 Chronic Nuisances.

A. Purpose.

The purpose of this Ordinance is to establish an expedited enforcement program to address the problem of properties and/or property owners (person in charge) with multiple, continuing violations concerning derelict, abandoned, or vacant commercial and residential buildings and property within the City. Violations of other offenses as defined in Chapter 5 of this Code may also be declared to be a chronic nuisance.

Chronic nuisance properties present health, safety and welfare concerns, where the persons responsible for such properties have failed to take corrective action to abate the nuisance condition. Chronic nuisance properties have a negative impact upon the quality of life, safety and health of the neighborhoods where they are located. This Section is enacted to remedy nuisance activities that are particularly disruptive to quality of life and repeatedly occur or exist at properties, by providing a process for abatement. This remedy is not an exclusive remedy and may be used in conjunction with such other remedy authorized by law.

Chronic nuisance properties are also a financial burden to the City by the repeated calls for service to the properties because of the nuisance activities that repeatedly occur or exist on such property. This Section is a means to ameliorate those conditions and hold accountable those persons responsible for such property.

B. Chronic Nuisance Determination.

The City Manager and/or his designee shall determine that a nuisance is chronic based upon personal observation by a City employee, or after an investigation by the City as a result of a complaint filed with the City, and a determination that there are reasonable grounds to conclude that the alleged nuisance activities did, in fact, occur in violation of the City Code.

Violations of nuisances and offenses as identified in Chapter 5 of the City Code shall be deemed a chronic nuisance if the following circumstances exist. For the purpose of Chronic Nuisance Determination, each day a citation is issued for an existing violation shall constitute a separate “nuisance activity”.

1. Property on which three (3) or more nuisance activities exist or have occurred during any consecutive 60 day period; or
2. Property on which six (6) or more nuisance activities exist or have occurred during any consecutive 12 month period; or
3. A person in charge of properties on which nuisance activities exist or have occurred on three (3) or more separate properties during any consecutive 12 month period.

C. Enforcement.

1. In addition to any other enforcement remedies available to the City, properties and/or persons in charge of properties that have been deemed to be a chronic nuisance shall be subject to expedited enforcement including, but not limited to the following:
 - a. Fewer days allowed to abate the nuisance; and/or
 - b. Fewer contacts by the City in the enforcement process prior to abatement by the City.
2. Any fees, fines, or costs associated with a chronic nuisance shall be double the amount established by the City for the nuisance cited.

If the nuisance is abated by the person in charge of the property to the satisfaction of the City Manager or his designee within 30 days of the date of notice issued pursuant to Section 5.682.D, the matter shall not be referred to the City Attorney and the person in charge shall not be subject to the double penalty of this Section. Standard amount of penalties may still be assessed.

D. Procedures.

1. Notice.

Once it is determined that a property or person in charge of property is subject to this Chronic Nuisance Ordinance, the City Manager or designee shall expedite enforcement procedures as established by City policy to abate the nuisance. The expedited process shall include notification to the person in charge and the property owner.

The notice shall include the following information:

- a. State that the person in charge shall respond within ten (10) days to the City Manager or designee with the following information:
 - 1) Identify a plan for abatement of the nuisance including a schedule for completion; or
 - 2) Indicate good cause as to why the nuisance cannot be abated; or
 - 3) Contest the determination of the existence of a chronic nuisance.
- b. State that an acceptable abatement plan must be reached with the City Manager or designee within thirty (30) days from the date of the notice of determination that a chronic nuisance exists.
- c. State that if the nuisance is not abated and good cause for failure to abate is not shown, the matter may be referred to the City Attorney to seek any remedy deemed to be appropriate to abate the nuisance.
- d. State that fines, fees, and other costs may be doubled due to the chronic nuisance determination.

2. Commencement of Enforcement Action by City Attorney.

Upon referral, the City Attorney may initiate an action in any court of competent jurisdiction to abate a chronic nuisance property, to impose penalties pursuant to this Chapter, and/or seek any other relief authorized by law.

3. Additional Remedies.

a. Rental Properties.

In addition to the remedies authorized by this Section, if as part of its order abating a chronic nuisance property, the court orders a person in charge to cease renting or leasing a property, the court may order the person in charge to pay relocation assistance to a tenant who must relocate because of the order of abatement and the court has found that the tenant has not caused or participated in the nuisance activity at the property.

b. Existing City Permits.

1) Permit Suspension or Revocation.

In addition to any other remedy that is authorized by this Chapter or other laws, upon the finding by the City Manager that a property is a chronic nuisance property, the person in charge is subject to the suspension or revocation of a business license, other City license, or City permit for the subject property issued pursuant to the Astoria City Code, Astoria Development Code, or other City codes.

Permits and/or licenses issued to a tenant who has not caused or participated in the nuisance activity shall not be suspended or revoked as a result of the actions of the person in charge of the subject property.

2) Permit Reinstatement.

If a permit or license is suspended, it may be reinstated by the City Manager or designee once the nuisance has been abated and all liens, fines, fees, or costs have been satisfied. A new permit or license for the subject property shall not be issued to the person in charge or business associated with the nuisance until the nuisance has been abated and all City liens, fines, fees, or costs have been satisfied.

E. Appeals.

The person in charge shall have the right to contest the chronic nuisance determination by responding within ten (10) days to the City Manager with a request for a review of the determination.

If the City Manager determines that the chronic nuisance still exists, the person in charge may appeal that decision to the City Council in accordance with City Code Section 1.070. *[Section 5.682 added by Ordinance No. 11-03, passed February 7, 2011.]*
