OFF-STREET PARKING AND LOADING

7.010. PARKING AND LOADING AREAS REQUIRED.

- A. Off-street parking areas and off-street loading areas meeting the applicable requirements of this Section shall be provided and maintained:
 - 1. For each separate use in any building or structure erected after the adoption of this ordinance.
 - 2. For additional seating capacity, floor area, guest rooms, or dwelling units added to any existing structure or lot.
 - 3. When the use of the structure or portion thereof is changed.
- B. Where a structure is added to, or a portion thereof changes in use such that additional parking or loading is required, only the number of additional spaces required under Sections 7.100 and 7.160 for the area added or changed in use need be provided. Nevertheless, if the lot or structure as used prior to the addition or change of use did not have the number of parking and loading spaces required by Sections 7.100 and 7.160 and such deficiency was not lawfully nonconforming, parking for the entire building or use shall be provided as required by Sections 7.100 through 7.160.
- C. When additional parking or loading area is required or added to an existing nonconforming parking or loading area, the entire parking and loading area shall be improved as provided in Section 7.110 and landscaped setbacks from streets shall be provided as required in Section 7.170.

7.020. REDUCTION OF PARKING AREA PROHIBITED; EXCEPTION.

Off-street parking and loading areas which existed on the effective date of this ordinance or which are provided as required by this Section shall be maintained, or equivalent parking and loading areas provided; except that if this ordinance reduces the number of required off-street parking or loading spaces, an affected use may diminish its parking and loading area to the new requirements.

7.030. LOCATION.

- A. Off-street parking and loading areas required by this ordinance shall be provided on the same lot with the use except that:
1. In any residential zone, up to 50% of vehicle parking spaces for dwellings and other uses permitted in a residential zone may be located on contiguous lots or on a lot across a street or other right-of-way from the lot with the primary use.
 2. In non-residential zones, up to 50% of the required parking area may be located off the site of the primary use or structure provided it is within 300 feet of such site.
- B. Off-street parking is incidental to the use which it serves. As such, it shall be located in a zone appropriate to that use, or where a public parking area is a specific permitted use.
- C. Allowed On-Street Parking.

When on-street (within a right-of-way) parking spaces are allowed to be counted toward the required off-street parking spaces for a proposed use/site, the on-street parking spaces shall not be used exclusively by that use/site but shall be available for general public use at all times. Signs or other actions that limit general public use of on-street spaces are prohibited.

(Section 7.030.C added by Ord 19-05, 6-17-2019)

- D. Existing Parking within Right-of-Way.

Existing parking areas located within a right-of-way between the property line and the paved portion of the right-of-way may be counted toward the required off-street parking spaces as follows:

1. The parking area shall exist at the time of the proposed use application;
2. The parking area shall meet minimum parking space dimensions and not extend into pedestrian walkway/sidewalk, or into adjacent properties;
3. The City Engineer shall review and approve the location of the parking space;
4. The applicant shall obtain an administrative Type I permit for use of the area for parking.
5. The parking area shall be in compliance with City Code 6.100 (Clear Vision Ordinance) and shall not create a safety hazard.

6. Recreational vehicles, boats, and/or non-operable vehicles shall not be parked and/or stored in the parking areas located within a right-of-way between the property line and the paved portion of the right-of-way as allowed in Section 7.030.D.

(Section 7.030.D added by Ord 19-05, 6-17-2019)

7.040. FRACTIONAL MEASUREMENTS.

When calculations for determining the number of required off-street parking or loading spaces result in a requirement of fractional space, any fraction of a space less than one-half shall be disregarded, and a fraction of one-half or greater shall be counted as one full space.

7.050. OWNERSHIP OF PARKING AND LOADING AREAS.

- A. Except as provided for joint use parking in Section 7.070, the land to be provided for off-street parking and loading areas, including driveways, aisles, and maneuvering areas shall be:
1. Owned by the owner of the property served by the parking; or
 2. In commercial and industrial zones, the parking may be provided by a permanent and irrevocable easement appurtenant to the property served by the parking; or
 3. Be leased for a minimum term of five (5) years, provided that upon expiration or termination of the lease, the parking requirements of this ordinance shall otherwise be fully met within 90 days or the use discontinued until such requirements are met.

7.060. OFF-STREET VEHICLE PARKING REQUIREMENTS.

- A. Except as otherwise specifically provided in this ordinance, off-street parking spaces shall be provided in amounts not less than those set forth in Section 7.100.
- B. For any proposed use not listed in Section 7.100, the Community Development Director shall determine the parking space requirement for the most nearly similar use listed in Section 7.100 with regard to traffic generation.

7.062 SPECIAL EXCEPTIONS TO OFF-STREET VEHICLE PARKING REQUIREMENTS.

A. Developed Sites Exemption.

Existing buildings which encompass all or a major portion of a lot with little or no possibility of providing off-street parking in compliance with City Code may apply to the Community Development Director for authority to participate in a program whereby, in lieu of providing required off-street parking, annual payments would be made to the City for the purpose of supporting mass transit, and development of public parking. As an alternative to making annual cash payments, the applicant may, with approval of the City Council, provide a public service of equal or greater value than the cash payment.

1. Participation in the Program.

The Director shall approve participation in the program upon a finding that the lack of required off-street parking will not result in a public safety hazard. Participation involving the provision of compensation in the form of public service in lieu of cash payments also requires the concurrence of the City Council.

2. Location.

This exception shall apply to any change of use or expansion of a use in all zones except those areas where the provision of off-street parking is otherwise exempted.

3. Compensation.

a. Cash Payments.

The fee to be paid for each parking space not provided shall be \$180.00 per year.

The fee shall be paid annually on a per space basis. The number of spaces subject to a fee shall be the difference between the number of off-street spaces provided and the number required by the Astoria Development Code, or, where a Variance is issued, the number of spaces authorized by Variance.

Payments shall be made to the City of Astoria at the beginning of each year the applicant is involved in the program, and shall be made, in accordance with a payment schedule to be established by the Community Development Department.

b. Compensation in Lieu of Cash Payments.

Compensation in lieu of cash payments may be accepted only upon a finding by the City Council that there is both a need for the proposed public service, and that the value of the service is equivalent to or greater than the cash payment described in Section 3(a) above.

(Section 7.062 Added by Ordinance 93-08, 10-18-93; amended by Ordinance 96-04, 5-6-96)

B. Modification of Parking Space Requirements.

1. The applicant may propose a parking space standard that is different than the standard in Section 7.100, for review and action by the Community Development Director through a Type II variance, pursuant to Article 9. The applicant's proposal shall consist of a written request, and a parking analysis prepared by a qualified professional. The parking analysis, at a minimum, shall assess the average parking demand and available supply for existing and proposed uses on the subject site; opportunities for shared parking with other uses in the vicinity; existing public parking in the vicinity; transportation options existing or planned near the site, such as frequent bus service, carpools, or private shuttles; and other relevant factors. The Community Development Director may reduce the off-street parking standards for sites with one or more of the following features:
 - a. Site has a bus stop with existing or planned frequent transit service (15-minute headway or less) located adjacent to it, and the site's frontage is improved with a bus stop waiting shelter, consistent with the standards of the applicable transit service provider: Allow up to a 20 percent reduction to the standard number of automobile parking spaces;
 - b. Site has dedicated parking spaces for carpool/vanpool vehicles: Allow up to a 10 percent reduction to the standard number of automobile

- parking spaces;
- c. Site has dedicated parking spaces for motorcycle and/or scooter or electric carts: Allow reductions to the standard dimensions for parking spaces and the ratio of standard to compact parking spaces;
- d. Available on-street parking spaces adjacent to the subject site in amounts equal to the proposed reductions to the standard number of parking spaces.
- e. Site has more than the minimum number of required bicycle parking spaces: Allow up to a 10 percent reduction to the number of automobile parking spaces.

(Section 7.062.B added by Ordinance 14-03, 4-21-14; scrivner's error amended per Ord 19-05, 6-17-2019)

(Section 7.062.C added by Ordinance 14-03, 4-21-14)

7.070. JOINT USE OF PARKING AREAS.

- A. The Community Development Director may authorize the joint use of parking areas by the following uses or activities as a Conditional Use in every zone under the following conditions:
 - 1. Up to 50% of the off-street parking spaces required by this ordinance for a church, auditorium in a school, theater, bowling alley, night club, eating or drinking establishment may be satisfied by the off-street parking spaces provided by uses occupied only during the daytime on weekdays.
 - 2. Up to 50% of the off-street parking spaces required by this ordinance for any daytime use may be satisfied by the parking spaces provided for nighttime or Sunday uses.
 - 3. All jointly used spaces shall be located with relation to all uses relying on such spaces within the applicable distance set forth in Section 7.030.

4. The Planning Commission must find that there is no substantial conflict in the principal operating hours of the buildings or uses for which joint use of off-street parking facilities is proposed.
5. A properly drawn legal instrument executed by the parties concerned with joint use of off-street parking facilities, approved as to form and manner of execution by Legal Counsel, shall be filed with the Community Development Director. Joint use parking privileges shall continue in effect only so long as such an instrument, binding on all parties, remains in force. If such instrument becomes legally ineffective, then parking shall be provided as otherwise required in this ordinance within 60 days.
